Dear Parents:

Most of you are probably aware that every year there are more state and federal regulation that all schools must meet. Spearville Elementary School offers federally funded Title 1 services to students designed to improve reading and math performance. As a result, the school must abide by federal and state regulations.

The following items address some of these regulations. Please review each item. If you have questions, I am usually available by phone; or you may schedule an appointment.

**PROFESSIONAL QUALIFICATIONS OF CLASSROOM TEACHERS**

- 1. Parents have the right to request information regarding the professional qualifications of their student's classroom teachers.**

All of the classroom teachers at Spearville Elementary School are certified by the state.

- 2. Parents will be notified if their student is instructed for four continuous weeks by a teacher that does not meet the definition of "highly qualified".**

If the school would need to use a long term sub who did not meet all the new qualifications, parents would be notified.

- 3. Parents may request access to their student's state assessment scores.**

State Assessment results were sent to parents last spring. We will send state assessment results when received this year.

- 4. Parents may access building, district and state report cards online at:**
